

# Contents of the Individualisation Package

Version 4.0 dated November 6, 2023

**Please note:**

An active Mercedes me connect user account is a prerequisite for using the product content.

Depending on the individual equipment configuration of your Mercedes, this package currently includes a selection of features from the categories Sound Experience, Minigames and Projection Functions, along with other digital features.

The possible categories as well as the underlying features may change at any time during the contract period. You can find out which content is currently available for your Mercedes by referring to the overview

| Category                                 | Features                                  | Description   | Necessary optional extras              | Where can the contents be found?   | Availability for the following model series from production date  | Country availability |
|--|---|---|--|--|---|----------------------|
| 1.) Minigames                            | Sudoku                                    | For all fans of brain-teasers, the games package offers the 9x9 number puzzle Sudoku that is known all over the world. Solve the grid with as few mistakes as possible to progress to the next level. If you cannot solve the puzzle on your own, you can always use the integrated hint function. But don't use this function too often, otherwise you won't reach the next level.   | -                                      | Main menu Multimedia system<br>>> Apps   | A-Class (01/23)<br>B-Class (01/23)<br>CLA-Class (06/23)<br>C-Class (06/22)<br>EQA (12/23)<br>EQB (12/23)<br>EQE<br>EQE SUV<br>EQS (04/21)<br>EQS SUV<br>GLC (09/22)<br>GLS/GLE (04/23)<br>S-Class (06/21) | 1)                   |
|  | Pairs                                     | In this game you collect points by finding matching pairs of cards. However, the cards are always face-down and you can only take a look at two of the cards in each round. Remember the positions and motifs of cards you have already viewed in order to find all pairs and clear the field. The game has separate modes for one and two players respectively.  |  |  |   |                      |
|  | Shuffle Puck                              | The aim of this game is to get the ball into the opponent's goal with the help of pucks. Control the direction and strength with which you fire your pucks to hit the ball in the desired direction. Skilfully use collisions with bands and other pucks to reach your goal. The players take turns, the winner is the one who scores five goals first or is in the lead at the end of the time.  |  |  |   |                      |
|  | Tetris®                                   | The cult classic from the 80s offers endless fun on your displays. Earn your personal high score by removing as many lines as possible and reaching the last level. In addition to the classic game mode, there are others available, such as the Ultra mode for a quick round in a spare moment. In the Settings menu, you have the option of customising the game according to your preferences. This gives you the choice between intuitive touch-screen control or a virtual gamepad on your screen. Tetris® is available exclusively for all EQS vehicles. |  |  |   |                      |
| 2.) Sound Experience                     | Roaring Pulse                             | As part of the Burmester® surround sound system, the specially designed Sound Experience in the interior enhances your electric driving experience. The additional "Roaring Pulse" sound experience is very "up front" and its basic sound components are reminiscent of archetypal powerful elements such as large-volume combustion engines, turbines and forces of nature.   | Burmester® surround sound system       | Main menu Multimedia system<br>>> Vehicle >> Sound Experience >> Settings                                  | EQA (08/23)<br>EQB (08/23)<br>EQE (06/22)<br>EQE SUV<br>EQS (06/22)<br>EQS SUV  | 1)                   |
|  | Serene Breeze                             | As part of the Burmester® surround sound system, the specially designed Sound Experience in the interior enhances your electric driving experience. You will receive the additional Sound "Serene Breeze".  | Burmester® surround sound system       | Main menu Multimedia system<br>>> Vehicle >> Sound Experience >> Settings                                  | EQA (08/23)<br>EQB (08/23)<br>EQE (06/23)<br>EQE SUV (06/23)<br>EQS (06/23)<br>EQS SUV (06/23)  | 1)                   |
| 3.) DIGITAL LIGHT Projections Open/Close | Particle Flow / Reduced Lines / Star Flow | Digital intelligence communicating with you: DIGITAL LIGHT acts as a welcome light to greet the driver with a light show from the headlamps and taillights when the vehicle is unlocked, and bids farewell when it is locked. Activate an additional light show like this for your specific vehicle model: separate light scenarios are available for each of the brands Mercedes-EQ, Mercedes-AMG and Mercedes-Benz.   | DIGITAL LIGHT with projection function | Main menu Multimedia system<br>>> Settings<br>>> Light >> DIGITAL LIGHT >> Projection when opening/closing | C-Class (06/22)<br>EQS (12/21)<br>EQS SUV<br>EQE (12/21)<br>EQE SUV   | 2)                   |
